SAUDI GLOBAL PORTS

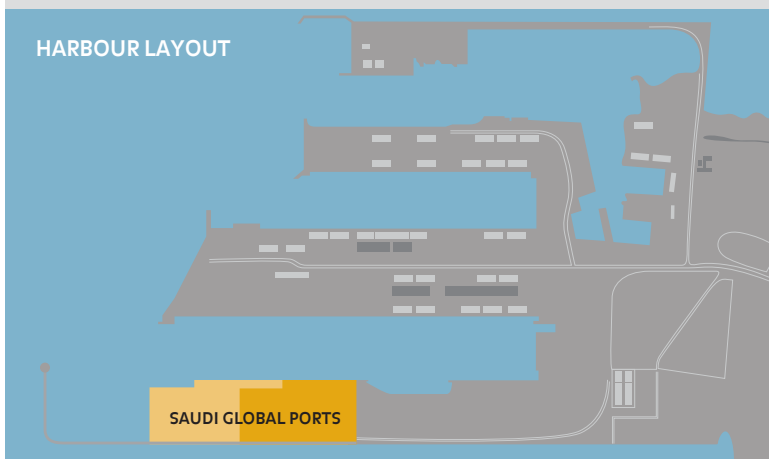

Dammam's King Abdul Aziz Port is an important deep water hinterland port in the Arabian Gulf serving the major provincial cities in the Eastern and Central Provinces of Saudi Arabia.

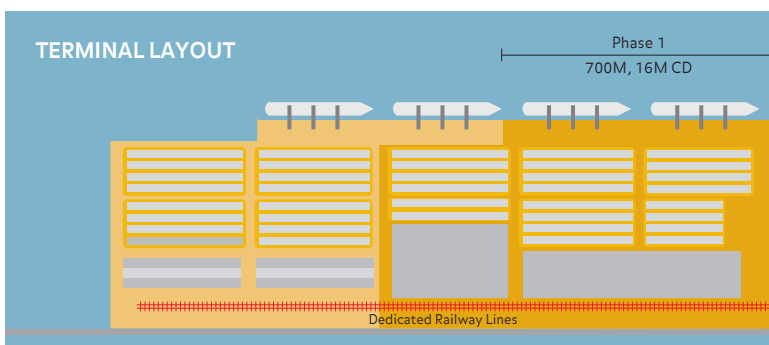

Dammam is the closest gateway port to the country's economic centre and capital city, Riyadh, and is linked by an existing railway network and excellent highways. It is also the largest Gulf port in Saudi Arabia.

PSA and the Public Investment Fund will jointly develop this world-class container facility and equip it with the latest equipment and technology to serve the fast growing regional economies of the Arabian Peninsula.

Saudi Global Ports commenced its commercial operations on 23 April 2015. ■
